Profile

Coming from a family of two visual artists I have always regarded myself as an artistic person. During my university years in Bulgaria I was involved in many freelance projects most of which were in the field of graphic and print design. Later I became involved with web based projects that I found much more interesting and challenging. I spent the last three and a half years in London working on various web design projects mainly for the travel and luxury goods industry. I truly enjoy interactive designs and challenging projects. Working on Flash and Flex projects is where I can achieve my full potential as a designer and combining it with server-side technology makes my applications truly powerful. One of my main goals is to always separate design from development code where possible.

I am looking for an opportunity to work with experienced professionals in a dynamic team, in which I will continue to develop myself as a designer and developer.

Experience

SCEA Domaine De La Verriere

Design manager - part-time (2008 - ongoing)

La Verriere is a French family company producing the prestigious wine brand Chêne Bleu. Over the past two years I've been working as their in-house design/development manager, producing everything from their logo and brand identity to various print and web materials and everything else that comes on the way. <http://www.laverriere.com/>

Carat Vision International BVBA

Web designer and developer - contract (2009)

Carat Vision International is a diamond trading B2B company. I was hired on a freelance contract to design and develop a website with institutional look. The client also required a CMS functionality and approved the use of Joomla to facilitate that with their budget and short timeframe. The project has now been officially launched and the URL is <http://www.caratvision.com/>

NinetyTen Ltd

Web designer and developer - contract (2009)

NinetyTen Ltd. is a UK market leader in enterprise social networking solutions. I was hired on a freelance contract to work with their marketing team and design and develop a high-end Flex based website which represents their business vision and innovation ideas. The project has now been officially launched and the URL is <http://www.ninetyten.com/>

Union Income Benefit Holdings LTD

Web designer and developer - contract (2008-2009)

UIB is an insurance company that is currently launching a new business line. I was hired by the company on a freelance basis for the duration of a project to design and develop a contemporary services website that will interact with their new customers. This project was especially challenging because of heavy design regulation and requirements by the client. The project has now been officially launched and the URL is <http://www.unisonprepaid.com/>

Suzanne's Files LLC

Design and technology manager - full-time (2006-2008)

I spent two years heading design and technology for the lifestyle advice company suzannesfiles.com where I had the opportunity to work with and create visual materials for brands like Lexus, Mandarin Oriental, AMEX, Silverjet, Gucci and others. Starting as intern I was soon on a full-time position and a partner in the company. My main responsibilities were building and expanding the website, designing and sending the weekly newsletter and working directly with advertisers on their marketing campaigns on suzannesfiles.com by creating or adjusting ads for them.

Spire LLC

Designer - temporary (2008)

At the beginning of 2008 Suzanne's Files was acquired by its much bigger American competitor spire.com. As senior member of Suzanne's Files and shareholder of Spire I was given the opportunity to work with the design team at Spire on the new website which was launched in May 2008. My main contribution was in creating banners, mockups and sourcing visual materials for the website.

Freelance work

Web designer (2006-2009)

I used my free time in the last few years to work on freelance projects aside from my regular job. This gave me additional experience and a chance to work with different type of clients in various industries. Please refer to my portfolio page <http://www.momchil.mtsstudios.com/> for more details.

Education

ESE	European School of Economics (2006-2008) London International Finance Major (BA Hns) Transfer student into the second year of study. http://www.eselondon.ac.uk/
ECEM	European College of Economics and Management (2003-2006) Bulgaria Double major - Business administration and TV Journalism and media Studies. Top 5% of my class.
“Tzanko Lavrenov”	Tzanko Lavrenov Professional School of Arts (1998-2003) Bulgaria Graphics studies major. Graduated on top of my class.
Skills	
Languages	Verbal and written fluency in English and Bulgarian. Intermediate verbal and written Russian.
Knowledge	Graphic and web design, typography and layout, pre-production and planning, usability and navigation, web development (XHTML + CSS, Action Script 3.0 + MXML, PHP5 and MySql) professional photography -intermediate level (both digital and traditional), video editing.
Applications	Standart Adobe CS3 and CS4 applications, Eclipse, Corel Draw, MS Office, 3D Studio MAX and others. hardware (setup, maintenance and troubleshooting), Windows, OS X.
Hobbies	I spend my free time cooking, working out at the gym, doing photography and combining or supplementing the above with a warm social life. I enjoy driving a lot and like to visit new places without a precise itinerary, do some photography, mountaineering and get culture shocked sometimes. I'm also always up for a new challenge like diving, horseback riding or even why not something extreme?
